

Straws Icebreaker

Materials:

One straw per player

A cup

A sharpie

Answers:

First, mark the ends of a small number of straws to set them apart. The number of straws to mark depends on how many people you would like to answer the question. Usually three or four is a good number for a group of 10 to 20.

Prepare a number of questions for your group to answer. You can ask them questions like:

“What is your dream job?”

“What is your favorite place on Earth?”

“If you could be any animal, what would you be?”

“What was your worst date experience?”

To play, place all the straws into a cup. Ask a question to the entire group and then let each person draw a straw. Each player that draws a specially marked straw will answer the question. Repeat this process for as many questions as you like.
